

The **School of Public Health** at Bielefeld University seeks to appoint as soon as possible a:

Junior professor (W1; m/f/d) of Public Health with a focus on Electronic Public Health

At Bielefeld University, scientists representing a wide variety of perspectives work together in an interdisciplinary way to ensure innovative research and teaching at the highest level with international orientation. Bielefeld University comprises 14 faculties including natural and technical sciences and medicine with about 3,500 employees and 25,000 students.

The future professor should represent the focus of Electronic Public Health at the Bielefeld School of Public Health in research and teaching. The candidate must be able to connect with the scientific research of the faculty and be willing to cooperate with other faculties of Bielefeld University and external cooperation partners. Close cooperation between the School of Public Health, the newly founded Faculty of Medicine and other faculties (e.g. Technology or Economics) offers the possibility of inter- and transdisciplinary work at the Bielefeld location.

We are looking for a scientist:

- with a very good doctorate, preferably in public health or a related discipline
- who has developed their own scientific focus, especially in the areas of electronic public health, in combination with other health topics (e.g. digital methods in prevention or health services research)
- who has demonstrated their scientific-methodological and, if applicable, practical experience through relevant national and international scientific publications
- whose previous research work demonstrates the ability to conduct independent research in the field of the professorship at the highest scientific level
- who has teaching experience in university courses related to public health which have been positively evaluated.

Inter- and transdisciplinary cooperation experience as well as experience in scientific policy advice in the context of digital public health are desirable.

Recruitment for the advertised professorship is based on §36 HG NW. The appointment is at first limited to three years. An extension for another three years is possible in case of a positive evaluation.

Applicants whose first language is not German should be able to teach courses in German, in addition to courses in English, within about two years of hiring.

Applications from suitably qualified handicapped and severely handicapped persons are explicitly encouraged.

Bielefeld University has received a number of awards for its achievements as an equal-opportunity employer and has been recognized as a family-friendly university. The university welcomes applications from women. This is particularly true with regard both to academic and technical posts as well as positions in information technology as well as the skilled crafts and trades. Applications are handled according to the provisions of the state statutes on equal opportunity.

We are looking forward to receiving your application. The application can be written in German or English.

Applications should include the usual documents (curriculum vitae, certificates, list of publications with identification of up to ten important publications, information on previous teaching activities and third-party funding, research and teaching concept [two pages]).

Please submit your application online via the University of Bielefeld's vocation portal by **July 10, 2022**:
