

The **Faculty of Chemistry** at Bielefeld University seeks to appoint a

Professor (W3) of Biochemistry

at the earliest possible date.

Bielefeld University is a research-intensive university with international appeal and innovative teaching concepts. With around 3,500 staff and 25,000 students, it comprises 14 Faculties including Natural and Technical Sciences and Medicine. One focus of research at the Faculty of Chemistry is in the field of Life Science Chemistry.

The Faculty of Chemistry invites applications from scientists with an international reputation for outstanding research in experimental biochemistry, including the investigation of molecular mechanisms in the context of the cell. We expect a meaningful complementation of the research areas that already exist in the Faculty and the willingness to actively contribute to overarching foci of research and future collaborative research programmes of the Faculty and University, e.g. on oxygen-dependent enzyme reactions. A connection to molecular medicine is desired.

The Faculty of Chemistry attaches great importance to the quality of teaching and to student support. In teaching, the advertised professorship represents the subject of biochemistry in its entire breadth within the framework of the B.Sc. and M.Sc. biochemistry programmes, the doctoral programme in Chemistry as well as in other subject-related degree programmes.

The requirements for employment are in accordance with § 36 HG NRW.

Applications from suitable persons with severe disabilities and persons with disabilities of equal status are expressly encouraged.

Bielefeld University has received a number of awards for its achievements in the provision of equal opportunity and has been certified as a family friendly university. The University welcomes applications from women. This is particularly true in the academic field. Applications are handled according to the provisions of the state equal opportunity statutes. Family leave periods are appropriately considered in the selection decision.

Bielefeld University supports dual-career constellations in creating a common centre of work and life.

Please submit your application by **June 11, 2023** via the online appointment portal of Bielefeld University:

<https://berufungen.uni-bielefeld.de/>

Applications should consist of the usual documents (cover letter, curriculum vitae, academic certificates, list of publications with identification of up to ten important publications, information on previous teaching activities and third-party funding, two-page research and teaching concept, copies of the three most important scientific publications).
